2. International Workshop

Date: Saturday 30 June to Sunday 1 July 2018, Participants on invitation only

Venue: Holiday Inn Montreal Centre-Ville, 999 St-Urbain, Montreal

In 2020, the 15th Conference of the Parties to the CBD in China is expected to decide about CBD's new strategic framework until 2030. WWF Germany is preparing a contribution to this discussion in consultation with experts from different disciplines.

The second expert workshop will convene in Montreal prior to SBSTTA-22/SBI-2 to discuss **targets of the current Strategic Plan 2011-2020**.

Inter alia, the following questions will be addressed:

Should the current targets be maintained, adjusted, or replaced?

Do we need additional targets until 2030?

How should the linkages to the targets under the SDGs be reflected?

How to underpin the target with milestones up to 2030?

Session 1 – Input from other processes

10:00 **Results of assessing Aichi targets' SMARTness**

RSPB commissioned a study that has assessed how SMART the framing of the 20 Aichi Targets in the current Strategic Plan is. This work has asked a group of international experts to score the Aichi Targets against a set of 'SMART'-based criteria and then investigated the relationship between these criteria and progress made towards the target using the findings from two global progress assessments.
