Austria, Belgium, Bosnia-Herzegovina, Colombia, Denmark, Dominican Republic, Ethiopia, Finland, France, Germany, Luxembourg, Ireland, Mexico, Peru, Slovenia, Slovakia, Spain, Sweden, The Netherlands, United Kingdom, Uruguay.

The coalition is accepted as a Cancun commitment for enhanced implementation of the CBD and warmly welcomed by IPBES.

Signed by Nature, Environment and/or Agriculture representatives

About the coalition

Promote Pollinators,

the Coalition of the Willing on Pollinators
reaches out to potential new partners

to develop and implement
national pollinator strategies

Shared values & believes

We believe that

- Country-led politics can foster policy measures and innovative action on protecting pollinators.
- National pollinator strategies are an important tool for the conservation of pollinators.
- We strive to meet the key messages of the IPBES report on Pollinators, Pollination and Food production.

The aims of the Coalition:

- **Committed to taking action** to protect pollinators and their habitats in order to stop and reverse their decline
- **Sharing** experiences and lessons learnt in developing, facilitating and implementing pollinator strategies
- **Reaching out** to a broad spectrum of stakeholders
- **Developing research** that will help to fill knowledge gaps on the subject of pollinator conservation;
- **Mutually supporting and collaborating** with each other and with all countries and partner organizations willing to join

The goal is to establish a lively, learning network

Towards the future

- More members to join
 - => Sign-up event at COP-CBD 14 (4/5 new members)
- Support members at COP-CBD 14
 - => working session
 - Knowledge sharing
 - Discussions on perspectives of members
 - Facilitating members
 - Special focus on big data
- Newsletter

Related developments

- **International Initiative for the Conservation and Sustainable Use of Pollinators (COP-CBD 11/18)**
 - => Action plan 2018 - 2030, facilitation FAO
- **European Pollinator Initiatives**
 - => monitoring methodology & green infrastructure
- **Big Data for Bees**
 - => smart use of open data, satellite and remote sensing
- **UN World Bee Day (20 May)**
 - => awareness raising importance of pollination, specifically bee's

A close-up photograph of a bumblebee with black and yellow stripes, perched on a cluster of bright pink flowers. The background is a soft-focus green and pink, suggesting a garden setting. The entire image is framed by a light green border.
